SPECIFICATION

Magnoflorine Iodide

for the Japanese Pharmacopoeia Crude Drugs Test (for Assay)

	REQUIREMENT	SPECIFICATION
	Description (JP method)	White to yellowish-pale gray, crystals or crystalline powder to pass test
	Identification (1) (JP method)	
	Identification (2) (JP method)	to pass test
	Absorbance E1%1cm (223nm) (JP method)	1066~1132
	Purity (JP method)	-
	Related substances (JP method)	to pass test
	Unity of peak (JP method)	to pass test
*	Assay (qNMR) (JP method)	min.95.0%
**	Solubility in water-methanol	to pass test
**	Water	measured value

^{*:}The specification is originally set by Wako **:Additional test performed by Wako
