Code No.16-2107

## **SPECIFICATION**

## Polyoxyethylene(23) Lauryl Ether

for Biochemistry

| REQUIREMENT                         | SPECIFICATION |
|-------------------------------------|---------------|
| Appearance                          | White mass    |
| Solubility in water                 | to pass test  |
| Water                               | max.4.0%      |
| Residue after ignition (as sulfate) | max.1.0%      |
| Protease                            | to pass test  |
| Acid value                          | max.5         |
