

SPECIFICATION

Sodium Acetate Trihydrate

for Nitrogen Oxides Analysis

REQUIREMENT	SPECIFICATION
Appearance	White, crystals ~ crystalline powder
Solubility in water	to pass test
pH of a 50g/L solution at 25°C	7.5~9.0
Substances reducing permanganate (as O)	max.0.005%
Suitability for nitrogen oxides determination	to pass test
Assay	min.98.5%
