

## SPECIFICATION

Silicon, Powder, 99.9% (Particle Size 1  $\mu$ m)

## Battery Grade

REQUIREMENT	SPECIFICATION
Appearance	Gray-blackish purple~blackish brown, powder
Particle diameter (d50)	0.5~1.4 $\mu$ m
Sodium (Na)	under investigation
Aluminium (Al)	under investigation
Chromium (Cr)	under investigation
Copper (Cu)	under investigation
Iron (Fe)	under investigation
Nickel (Ni)	under investigation
Titanium (Ti)	under investigation
* Purity (subtracting method)	min.99.9%

\*:calculated by subtracting method with determination of metal impurities
