

Code No.03-0733

## SPECIFICATION

### 1w/v% Crystal Violet, Acetic Acid Solution for Non-aqueous Titration

| REQUIREMENT                           | SPECIFICATION              |
|---------------------------------------|----------------------------|
| Appearance                            | Dark bluish purple, liquid |
| Absorption maximum                    | 585~595nm                  |
| Absorbance(1→2000, 590nm)             | 0.7~0.9                    |
| Suitability for non-aqueous titration | to pass test               |
