## SPECIFICATION

## 2-(2,4-Dihydroxy-3,5-diiodobenzoyl)benzoic Acid Standard

## for Food Additives Test

REQUIREMENT	SPECIFICATION
Appearance	Slightly yellow $\sim$ yellowish brown, crystalline powder $\sim$ powder
Solubility in acetonitrile	to pass test
Absorption maximum	348~354nm
Specific absorbance E1%1cm ( $\lambda$ max) (calculated on the dehydrous basis)	426~520
(calculated on the denydrous basis) Water	max.1.0%
Assay (HPLC)	min.95.0%
