

Code No.21-0135

## SPECIFICATION

### Urea Standard for Amino Acid Analysis

| REQUIREMENT                               | SPECIFICATION                        |
|---|--------------------------------------|
| Appearance                                | White, crystals ~ crystalline powder |
| Solubility in water                       | to pass test                         |
| Water                                     | under investigation                  |
| Suitability for amino acids determination | under investigation                  |
| Assay (volumetric analysis)               | min.98.0%                            |
| Assay (subtracting method)                | under investigation                  |
