

Code No.01-0852

SPECIFICATION

2,2'-Azino-bis(3-ethylbenzothiazoline-6-sulfonic Acid)

for Residual Chlorine Analysis

| REQUIREMENT | SPECIFICATION |
|---|------------------------------------|
| Appearance | White ~ pale brown, powder or mass |
| Solubility in 0.1mol/L tartaric acid solution | to pass test |
| Water | max.5.0% |
| Suitability for residual chlorine measurement | to pass test |
