## **SPECIFICATION**

## Ammonium Iron(II) Sulfate Hexahydrate, 99.5%

	REQUIREMENT	SPECIFICATION
	Appearance Solubility in dil.nitric acid	Pale bluish green, crystals ∼ crystalline powder under investigation
*	Purity (subtracting method)	min.99.5%
	Assay (volumetric analysis)	under investigation

<sup>\*:</sup>calculated by subtracting method with determination of metal impurities
