

Code No.04-2467

## SPECIFICATION

### DL- $\alpha$ -(3,5-Dihydroxyphenyl) glycine for Biochemistry

| REQUIREMENT                                | SPECIFICATION                         |
|--|---------------------------------------|
| Appearance                                 | White ~ pale brown, crystals ~ powder |
| Solubility in water                        | to pass test                          |
| Specific rotation [ $\alpha$ ]D20(c=1,H2O) | under investigation                   |
| Assay (HPLC)                               | min.95.0%                             |
