

Code No.20-0100

## SPECIFICATION

## Thioflavine T

| REQUIREMENT                         | SPECIFICATION                                |
|-------------------------------------|--|
| Appearance                          | Reddish yellow ~ yellowish brown, crystals ~ |
| Solubility in water                 | powder or mass<br>to pass test               |
| Absorption maximum                  | 407~417nm                                    |
| Absorbance (5mg/l, $\lambda$ max)   | 0.30~0.50                                    |
| Loss on drying at 105°C             | max.15.0%                                    |
| Residue after ignition (as sulfate) | max.25.0%                                    |
