Wako

Code No. 019-27713 (100 μ L)

**Anti CD63, Monoclonal Antibody (3-13),
Biotin Conjugated**
**抗 CD63, モノクローナル抗体 (3-13),
ビオチン結合**

Anti human CD63 (lysosome-associated membrane glycoprotein 3 : LAMP3) mouse monoclonal antibody was produced by hybridoma, clone number : 3-13. CD63 is the four-transmembrane protein and is used for the marker protein for activated platelet. In addition, it is also present in monocytes and macrophages and is weakly expressed in granulocytes, B, and T cells.

Recently, CD63 is also used for a marker protein for extracellular vesicles, which contain proteins, DNA, mRNA, microRNAs and are expected as a novel biomarker.

This product is antibody conjugated biotin to Anti CD63, Monoclonal Antibody (3-13).

This product is intended for laboratory use only.

【Formulation】

1 \times TBS aqueous solution with 50% glycerol, 0.05 w/v% sodium azide, pH 7.2.

【Clone No.】

3-13

【Cross Reactivity】

Human CD63

Note : This antibody doesn't recognize the mouse, rat, and bovine CD63.

【Subclass】

IgG1

【Application】

ELISA 1 : 1,000 - 1 : 10,000

Please optimize the most appropriate concentration for your analysis and samples.

【Storage】

Keep at -20°C.

【Package】
