Code No. 010-28561 (50 μ L)

Anti Parvalbumin, Guinea Pig 抗パルブアルブミン, モルモット

[Background]

Parvalbumin (PV) is a small calcium-binding protein with about 12 kDa involved in calcium signaling and plays a key role in second messenger systems and signal transduction in tissues such as skeletal muscle and brain¹⁾. PV is present in GABAergic interneurons and is expressed in multiple brain regions, including chandelier and basket cells in the cortex and Purkinje cells in the cerebellum^{2,4)}. As such, PV is widely used as a marker for general inhibitory neurons. Anti Parvalbumin, Guinea Pig is a guinea pig polyclonal antibody that reacts with PV⁵⁾.

[Description]

[Reactivity]	Reacts with parvalbumin
[Antigen]	Recombinant rat parvalbumin
[Species cross reactivity]	Mouse and rat (Other species have not been tested)
[Host]	Guinea pig
[Isotype]	- (Polyclonal)
[Formulation]	Antiserum

[Application]

Immunohistochemistry (frozen section) 1 : 1,000~3,200
Optimal concentration should be determined by each laboratory for each application.

[Storage]

Store at -20°C.
Avoid repeated freeze and thaw.

[Package]

50 μ L
