

# SAFETY DATA SHEET

According to JIS Z 7253:2019 Revision date 30-Jan-2023 Revision Number 4.02

### Section 1: PRODUCT AND COMPANY IDENTIFICATION

| Product Name  | Copper Standard Solution (Cu 100)   |
|---|---|
| Product Code  | 034-16231   |
| Manufacturer  | FUJIFILM Wako Pure Chemical Corporation<br>1-2 Doshomachi 3-Chome<br>Chuo-ku, Osaka 540-8605, Japan<br>Phone: +81-6-6203-3741<br>Fax: +81-6-6203-5964 |
| Supplier  | FUJIFILM Wako Pure Chemical Corporation<br>1-2 Doshomachi 3-Chome, Chuo-ku, Osaka 540-8605, Japan<br>Phone: +81-6-6203-3741<br>Fax: +81-6-6203-2029   |
| Emergency telephone number<br>Recommended uses and<br>restrictions on use | +81-6-6203-3741 / +81-3-3270-8571<br>For research use only  |

### Section 2: HAZARDS IDENTIFICATION

GHS classification <u>Classification of the substance or mixture</u> Skin corrosion/irritation Serious eye damage/eye irritation Acute aquatic toxicity Chronic aquatic toxicity

Category 2 Category 2A Category 3 Category 3

Pictograms

Warning

### Hazard statements

- H315 Causes skin irritation
- H319 Causes serious eye irritation
- H402 Harmful to aquatic life
- H412 Harmful to aquatic life with long lasting effects

#### **Precautionary statements-(Prevention)**

- Wash face, hands and any exposed skin thoroughly after handling
- Wear protective gloves/protective clothing/eye protection/face protection
- Avoid release to the environment
- Precautionary statements-(Response)

• IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

- · If eye irritation persists: Get medical advice/attention
- IF ON SKIN: Wash with plenty of soap and water
- If skin irritation occurs: Get medical advice/attention

Take off contaminated clothing and wash before reuse

#### Precautionary statements-(Storage)

Not applicable

### Precautionary statements-(Disposal)

· Dispose of contents/container to an approved waste disposal plant

#### Others

Other hazards

Not available

### Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Single Substance or Mixture Mixture

| Chemical Name                    | Weight-% | Molecular weight | ENCS    | ISHL No. | CAS RN     |
|----------------------------------|----------|------------------|---------|----------|------------|
| Water                            | <100     | 18.02            | N/A     | N/A      | 7732-18-5  |
| Nitric Acid                      | 0.63     | 63.01            | (1)-394 | *        | 7697-37-2  |
| Copper(II) nitrate<br>trihydrate | 0.04     | 241.60           | (1)-296 | *        | 10031-43-3 |

Note on ISHL No.:

\* in the table means announced chemical substances.

Impurities and/or Additives: Not applicable

# Section 4: FIRST AID MEASURES

#### Inhalation

Remove to fresh air. If symptoms persist, call a physician.

Skin contact

Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

#### Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

#### Ingestion

Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Do not induce vomiting without medical advice.

#### **Protection of first-aiders**

Use personal protective equipment as required.

### Section 5: FIRE FIGHTING MEASURES

#### Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment **Unsuitable extinguishing media** 

#### No information available

### Specific hazards arising from the chemical product

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

### Special extinguishing method

### No information available

### Special protective actions for

### fire-fighters

Use personal protective equipment as required. Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

### Section 6: ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

For indoor, provide adequate ventilation process until the end of working. Deny unnecessary entry other than the people involved by, for example, using a rope. While working, wear appropriate protective equipments to avoid adhering it on skin,

or inhaling the gas. Work from windward, and retract the people downwind. Environmental precautions To be careful not discharged to the environment without being properly handled waste water contaminated. Methods and materials for contaminent and methods and materials for cleaning up Absorb dry sand, earth, sawdust and the waste. Collect empty container that can be sealed. Recoverly, neutralization No information available Secondary disaster prevention measures Clean contaminated objects and areas thoroughly observing environmental regulations.

## Section 7: HANDLING AND STORAGE

### Handling

### Technical measures

Avoid contact with alkaline substances. Open after shaking containers well. Use with local exhaust ventilation. **Precautions** 

Do not rough handling containers, such as upsetting, falling, giving a shock, and dragging Prevent leakage, overflow, and scattering. Not to generate steam and dust in vain. Seal the container after use. After handling, wash hands and face, and then gargle In places other than those specified, should not be smoking or eating and drinking Should not be brought contaminated protective equipment and gloves to rest stops Deny unnecessary entry of non-emergency personnel to the handling area

### Safety handling precautions

Avoid contact with skin and eyes Use personal protective equipment as required.

### Storage

Safe storage conditions Storage conditions

Safe packaging material Incompatible substances

Store away from sunlight in well-ventilated place at room temperature (under 25 °C). Keep container tightly closed. Polyethylene alkaline substances

### Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Engineering controls**

In case of indoor workplace, seal the source or use a local exhaust system. Provide the safety shower facility, and handand eye-wash facility. And display their position clearly.

#### Exposure limits

| Chemical Name                 | JSOH (Japan)               | ISHL (Japan) | ACGIH                                |
|-------------------------------|----------------------------|--------------|--------------------------------------|
| Nitric Acid                   | 2ppm, 5.2mg/m <sup>3</sup> | N/A          | STEL: 4 ppm                          |
| 7697-37-2                     |                            |              | TWA: 2 ppm                           |
| Copper(II) nitrate trihydrate | N/A                        | N/A          | TWA: 1 mg/m <sup>3</sup> Cu dust and |
| 10031-43-3                    |                            |              | mist                                 |

#### Personal protective equipment Respiratory protection

Hand protection

Eye protection

Protective mask Protection gloves protective eyeglasses or chemical safety goggles Long-sleeved work clothes

Skin and body protection General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

# Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Form Color Turbidity Appearance Odor Melting point/freezing point

nearly colorless clear liquid no data available no data available Boiling point, initial boiling point and boiling range Flammability **Evaporation rate:** Flammability (solid, gas): Upper/lower flammability or explosive limits Upper: Lower: Flash point Auto-ignition temperature: **Decomposition temperature:** рΗ Viscosity (coefficient of viscosity) Dynamic viscosity Solubilities n-Octanol/water partition coefficient:(log Pow) Vapour pressure Specific Gravity / Relative density Vapour density **Particle characteristics**
