| Substances Remarks:  | This p                                   | roduct does not contair  | hazardous chem     | icals at concentration | s of 1% or greater. |

# Section 4: FIRST AID MEASURES

0.1% or greater.

Additionally, this product is not known to contain carcinogens etc. at concentrations of

#### Inhalation

Remove to fresh air. If symptoms persist, call a physician.

### Skin contact

Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

#### Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

#### Ingestion

Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Do not induce vomiting without medical advice.

#### **Protection of first-aiders**

Use personal protective equipment as required.

### Section 5: FIRE FIGHTING MEASURES

#### Suitable extinguishing media

Use extinguishing measures that are appropriate to local circumstances and the surrounding environment Unsuitable extinguishing media

## No information available

### Specific hazards arising from the chemical product

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Special extinguishing method

#### No information available

### Special protective actions for fire-fighters

Use personal protective equipment as required. Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

### Section 6: ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

For indoor, provide adequate ventilation process until the end of working. Deny unnecessary entry other than the people involved by, for example, using a rope. While working, wear appropriate protective equipments to avoid adhering it on skin, or inhaling the gas. Work from windward, and retract the people downwind.

#### **Environmental precautions**

To be careful not discharged to the environment without being properly handled waste water contaminated.

### Methods and materials for contaminent and methods and materials for cleaning up

Absorb dry sand, earth, sawdust and the waste. Collect empty container that can be sealed.

### Recoverly, neutralization

### No information available

### Secondary disaster prevention measures

Clean contaminated objects and areas thoroughly observing environmental regulations.

# Section 7: HANDLING AND STORAGE

### Handling

#### Technical measures

Use with local exhaust ventilation.

#### Precautions

Do not rough handling containers, such as upsetting, falling, giving a shock, and dragging. Prevent leakage, overflow, and scattering. Not to generate steam and dust in vain. Seal the container after use. After handling, wash hands and face, and then gargle. In places other than those specified, should not be smoking or eating and drinking. Should not be brought contaminated protective equipment and gloves to rest stops. Deny unnecessary entry of non-emergency personnel to the handling area.

#### Safety handling precautions

Use personal protective equipment as required. Avoid contact with skin, eyes or clothing. Storage

# Safe storage conditions

Storage conditions Safe packaging material Incompatible substances

Keep container protect from light tightly closed. Store in a cool (2-10 °C) place. Polvethvlene terephthalate No information available

# Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Engineering controls**

In case of indoor workplace, seal the source or use a local exhaust system. Provide the safety shower facility, and handand eye-wash facility. And display their position clearly.

#### **Exposure limits**

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

### Personal protective equipment

| Respiratory protection         | Protective mask   |
|--------------------------------|---|
| Hand protection                | chemical protective gloves (JIS T 8116)                       |
| Eye protection                 | protective eyeglasses or chemical safety goggles (JIS T 8147) |
| Skin and body protection       | Long-sleeved work clothes                                     |
| Conoral hygiana considerations |   |

### General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice. If this product is classified as "Chemical Substances Hazardous to Skin, etc.", use appropriate protective equipment to them.

# Section 9: PHYSICAL AND CHEMICAL PROPERTIES

### Form

| Color  | colorless         |
|--|-------------------|
| Turbidity  | clear             |
| Appearance   | liquid            |
| Odor   | no data available |
| Melting point/freezing point                           | no data available |
| Boiling point, initial boiling point and boiling range | no data available |
| Flammability   | no data available |
| Evaporation rate:                                      | no data available |
| Flammability (solid, gas):                             | no data available |
| Upper/lower flammability or explosive limits           |                   |
| Upper:   | no data available |
| Lower:   | no data available |
| Flash point  | no data available |
| Auto-ignition temperature:                             | no data available |
| Decomposition temperature:                             | no data available |
| рН   | 7.0 - 7.7 (25°C)  |
| Viscosity (coefficient of viscosity)                   | no data available |
| Dynamic viscosity                                      | no data available |
| Solubilities   | No data available |
| n-Octanol/water partition coefficient:(log Pow)        | no data available |
| Vapour pressure  | no data available |
| Specific Gravity / Relative density                    | no data available |
| Vapour density   | no data available |
| Particle characteristics                               | no data available |
|  |                   |

# Section 10: STABILITY AND REACTIVITY

#### Stability

Reactivityno data availableChemical stabilityMay be altered by light.Hazardous reactionsMay be altered by light.None under normal processingConditions to avoidConditions to avoidExtremes of temperature and direct sunlightIncompatible materialsNo information availableHazardous decomposition productsNo information available

# Section 11: TOXICOLOGICAL INFORMATION

Acute toxicity

Skin irritation/corrosion Serious eye damage/ irritation Respiratory or skin sensitization Reproductive cell mutagenicity Carcinogenicity

Reproductive toxicity STOT-single exposure STOT-repeated exposure Aspiration hazard no data available

no data available no data available no data available no data available no data available

no data available no data available no data available no data available

# Section 12: ECOLOGICAL INFORMATION

Ecotoxicity

No information available

Other data

no data available

Persistence and degradability Bioaccumulative potential Mobility in soil Hazard to the ozone layer No information available No information available No information available No information available

# Section 13: DISPOSAL CONSIDERATIONS

Waste from residues

Disposal should be in accordance with applicable regional, national and local laws and regulations. Contaminated container and contaminated packaging

Not regulated

Disposal should be in accordance with applicable regional, national and local laws and regulations.

# Section 14: TRANSPORT INFORMATION
