

# SAFETY DATA SHEET

According to JIS Z 7253:2019 Revision date 26-Feb-2024 Revision Number 3.04

### Section 1: PRODUCT AND COMPANY IDENTIFICATION

| Product Name  | Fensulfothion Standard   |  |  |
|---|--|--|--|
| Product Code  | 064-02961  |  |  |
| Supplier  | FUJIFILM Wako Pure Chemical Corporation<br>1-2 Doshomachi 3-Chome, Chuo-ku, Osaka 540-8605, Japan<br>Phone: +81-6-6203-3741                                      |  |  |
| Emergency telephone number<br>Recommended uses<br>Restrictions on use | Fax: +81-6-6203-2029<br>+81-6-6203-3741 / +81-3-3270-8571<br>For research use only<br>Seek expert judgment when using for purposes other than those recommended. |  |  |

### Section 2: HAZARDS IDENTIFICATION

**GHS** classification

Classification of the substance or mixture Acute toxicity - Oral Acute toxicity - Dermal Acute toxicity - Inhalation (Dusts/Mists) Specific target organ toxicity (single exposure) Category 1 nervous system, respiratory system Specific target organ toxicity (repeated exposure) Category 1 nervous system Acute aquatic toxicity Chronic aquatic toxicity

Category 1 Category 1 Category 1 Category 1

Category 1

Category 1 Category 1

**Pictograms** 

#### **Hazard statements**

- H300 Fatal if swallowed
- H310 Fatal in contact with skin
- H330 Fatal if inhaled
- H410 Very toxic to aquatic life with long lasting effects
- H400 Very toxic to aquatic life
- H370 Causes damage to the following organs: nervous system, respiratory system
- H372 Causes damage to the following organs through prolonged or repeated exposure: nervous system

### **Precautionary statements-(Prevention)**

- · Do not get in eyes, on skin, or on clothing
- Wear protective gloves/protective clothing/eye protection/face protection
- Do not breathe dust/fume/gas/mist/vapors/spray
- · Wash face, hands and any exposed skin thoroughly after handling
- Do not eat, drink or smoke when using this product

### Avoid release to the environment

### Precautionary statements-(Response)

- IF exposed: Call a POISON CENTER or doctor/physician
- IF ON SKIN: Gently wash with plenty of soap and water
- · Immediately call a POISON CENTER or doctor/physician
- Remove/Take off immediately all contaminated clothing
- Wash contaminated clothing before reuse
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
- Rinse mouth
- Collect spillage

### Precautionary statements-(Storage)

Store locked up

#### **Precautionary statements-(Disposal)**

· Dispose of contents/container to an approved waste disposal plant

#### Others Other hazards

Not available

Substance

### Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Single Substance or Mixture

Formula

### C11H17O4PS2

| Chemical Name   | Weight-% | Molecular weight | ENCS | ISHL No. | CAS RN   |
|---|----------|------------------|------|----------|----------|
| Fensulfothion   | 98.0     | 308.35           | N/A  | N/A      | 115-90-2 |
| Note on ISHL No.: * in the table means announced chemical substances. |          |                  |      |          |          |

### Section 4: FIRST AID MEASURES

### Inhalation

Remove to fresh air. If symptoms persist, call a physician.

#### Skin contact

Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

#### Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

#### Ingestion

Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Do not induce vomiting without medical advice.

### Protection of first-aiders

Use personal protective equipment as required.

### Section 5: FIRE FIGHTING MEASURES

### Suitable extinguishing media

Carbon dioxide (CO2), Foam, Extinguishing powder, Sand

### Unsuitable extinguishing media

### No information available

### Specific hazards arising from the chemical product

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

### Special extinguishing method

#### No information available

### Special protective actions for fire-fighters

Use personal protective equipment as required. Firefighters should wear self-contained breathing apparatus and full

firefighting turnout gear.

### Section 6: ACCIDENTAL RELEASE MEASURES

### Personal precautions, protective equipment and emergency procedures

For indoor, provide adequate ventilation process until the end of working. Deny unnecessary entry other than the people involved by, for example, using a rope. While working, wear appropriate protective equipments to avoid adhering it on skin, or inhaling the gas. Work from windward, and retract the people downwind.

### **Environmental precautions**

To be careful not discharged to the environment without being properly handled waste water contaminated.

Methods and materials for contaminent and methods and materials for cleaning up

Absorb dry sand, earth, sawdust and the waste. Collect empty container that can be sealed.

### Recoverly, neutralization

No information available

### Secondary disaster prevention measures

Clean contaminated objects and areas thoroughly observing environmental regulations.

### Section 7: HANDLING AND STORAGE

### Handling

### Technical measures

Highly flammable. Avoid contact with high temperature objects, spark, and strong oxidizing agents. Use with local exhaust ventilation.

### Precautions

Do not rough handling containers, such as upsetting, falling, giving a shock, and dragging. Prevent leakage, overflow, and scattering. Not to generate steam and dust in vain. Seal the container after use. After handling, wash hands and face, and then gargle. In places other than those specified, should not be smoking or eating and drinking. Should not be brought contaminated protective equipment and gloves to rest stops. Deny unnecessary entry of non-emergency personnel to the handling area.

### Safety handling precautions

Take necessary action to avoid static electricity discharge (which might cause ignition of organic vapors). Use personal protective equipment as required. Avoid contact with skin, eyes or clothing.

### Storage

Safe storage conditions Storage conditions

Keep container protect from light tightly closed. Store in a cool (2-10 °C) place. Packed with an inert gas. Store locked up. Glass

# Safe packaging material Incompatible substances

Strong oxidizing agents

### Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

### Engineering controls

In case of indoor workplace, seal the source or use a local exhaust system. Provide the safety shower facility, and handand eye-wash facility. And display their position clearly.

### **Exposure limits**

| Chemical Name | JSOH (Japan) | ISHL (Japan) | ACGIH                                 |
|---------------|--------------|--------------|---------------------------------------|
| Fensulfothion | N/A          | N/A          | TWA: 0.01 mg/m <sup>3</sup> inhalable |
| 115-90-2      |              |              | fraction and vapor                    |
|               |              |              | Skin                                  |

#### Personal protective equipment Respiratory protection

Hand protection Eye protection gas mask for organic gas (JIS T 8152) chemical protective gloves (JIS T 8116) protective eyeglasses or chemical safety goggles (JIS T 8147) Skin and body protection Long-sleeved work clothes

### General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

If this product is classified as "Chemical Substances Hazardous to Skin, etc.", use appropriate protective equipment to them.

### Section 9: PHYSICAL AND CHEMICAL PROPERTIES

| Form   |  |
|--|--|
| Color  | slightly yellow - yellow                                   |
| Turbidity  | clear  |
| Appearance   | liquid   |
| Odor   | no data available  |
| Melting point/freezing point                           | >25 °C   |
| Boiling point, initial boiling point and boiling range | no data available  |
| Flammability   | no data available  |
| Evaporation rate:                                      | no data available  |
| Flammability (solid, gas):                             | no data available  |
| Upper/lower flammability or explosive limits           |  |
| Upper:   | no data available  |
| Lower:   | no data available  |
| Flash point  | 100 °C   |
| Auto-ignition temperature:                             | no data available  |
| Decomposition temperature:                             | no data available  |
| рН   | no data available  |
| Viscosity (coefficient of viscosity)                   | no data available  |
| Dynamic viscosity                                      | no data available  |
| Solubilities   | Ethanol, acetone: soluble. water: practically insoluble,or |
|  | insoluble .  |
| n-Octanol/water partition coefficient:(log Pow)        | 2.23   |
| Vapour pressure  | no data available  |
| Specific Gravity / Relative density                    | 1.202 (20 /4 °C)   |
| Vapour density   | no data available  |
| Particle characteristics                               | no data available  |

### Section 10: STABILITY AND REACTIVITY

### Stability

 Reactivity
 no data available

 Chemical stability
 May be altered by light.

 Hazardous reactions
 None under normal processing

 Conditions to avoid
 Events

Extremes of temperature and direct sunlight, Heat, flames and sparks, static electricity, spark

Incompatible materials

Strong oxidizing agents

Hazardous decomposition products

Carbon monooxide (CO), Carbon dioxide (CO2), Sulfur oxides (SOx), Phosphorus oxide

## Section 11: TOXICOLOGICAL INFORMATION

#### Acute toxicity

| Chemical Name                         | Oral LD50               | Dermal LD50                      | Inhalation LC50                 |
|---------------------------------------|-------------------------|----------------------------------|---------------------------------|
