

SAFETY DATA SHEET

According to JIS Z 7253:2019
Revision date 28-Sep-2023
 Revision Number 6.04

Section 1: PRODUCT AND COMPANY IDENTIFICATION

| | |
|---------------------|-------------------------------------|
| Product Name | Triphenyltin(IV) Hydroxide Standard |
| Product Code | 208-13351 |

Supplier FUJIFILM Wako Pure Chemical Corporation
 1-2 Doshomachi 3-Chome, Chuo-ku, Osaka 540-8605, Japan
 Phone: +81-6-6203-3741
 Fax: +81-6-6203-2029

Emergency telephone number +81-6-6203-3741 / +81-3-3270-8571

Recommended uses For research use only

Restrictions on use Seek expert judgment when using for purposes other than those recommended.

Section 2: HAZARDS IDENTIFICATION

GHS classification

Classification of the substance or mixture

| | |
|-----------------------------------------------------------|------------------------|
| Acute toxicity - Oral | Category 3 |
| Acute toxicity - Dermal | Category 2 |
| Acute toxicity - Inhalation (Dusts/Mists) | Category 2 |
| Skin corrosion/irritation | Category 2 |
| Serious eye damage/eye irritation | Category 2A |
| Reproductive Toxicity | Category 2 |
| Specific target organ toxicity (single exposure) | Category 1, Category 3 |
| Category 1 central nervous system | |
| Category 3 Respiratory irritation | |
| Specific target organ toxicity (repeated exposure) | Category 1 |
| Category 1 immune system | |
| Acute aquatic toxicity | Category 1 |
| Chronic aquatic toxicity | Category 1 |

Pictograms

Signal word

Danger

Hazard statements

H315 - Causes skin irritation
 H319 - Causes serious eye irritation
 H301 - Toxic if swallowed
 H310 - Fatal in contact with skin
 H330 - Fatal if inhaled
 H361 - Suspected of damaging fertility or the unborn child
 H335 - May cause respiratory irritation
 H400 - Very toxic to aquatic life
 H410 - Very toxic to aquatic life with long lasting effects
 H370 - Causes damage to the following organs: central nervous system
 H372 - Causes damage to the following organs through prolonged or repeated exposure: immune system

Precautionary statements-(Prevention)

- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Use personal protective equipment as required
- Wash face, hands and any exposed skin thoroughly after handling
- Do not eat, drink or smoke when using this product
- Do not get in eyes, on skin, or on clothing
- Do not breathe dust/fume/gas/mist/vapors/spray
- Use only outdoors or in a well-ventilated area
- Avoid release to the environment

Precautionary statements-(Response)

- IF exposed: Call a POISON CENTER or doctor/physician
- IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing
- If eye irritation persists: Get medical advice/attention
- IF ON SKIN: Gently wash with plenty of soap and water
- Immediately call a POISON CENTER or doctor/physician
- Remove/Take off immediately all contaminated clothing
- Wash contaminated clothing before reuse
- If skin irritation occurs: Get medical advice/attention
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
- Call a POISON CENTER or doctor/physician if you feel unwell
- IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
- Rinse mouth
- Collect spillage

Precautionary statements-(Storage)

- Store locked up
- Store in a well-ventilated place. Keep container tightly closed

Precautionary statements-(Disposal)

- Dispose of contents/container to an approved waste disposal plant

Others

Other hazards Not available

Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

Single Substance or Mixture Substance

Formula C₁₈H₁₆OSn

| Chemical Name | Weight-% | Molecular weight | ENCS | ISHL No. | CAS RN |
|----------------------------|----------|------------------|----------|----------|---------|
| Triphenyltin(IV) Hydroxide | 98.0 | 367.03 | (3)-3412 | 1-(2)-72 | 76-87-9 |

Note on ISHL No.: * in the table means announced chemical substances.

Impurities and/or Additives: Not applicable

Section 4: FIRST AID MEASURES

Inhalation

Remove to fresh air. If symptoms persist, call a physician.

Skin contact

Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

Ingestion

Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Do not induce vomiting without medical advice.

Protection of first-aiders

Use personal protective equipment as required.

Section 5: FIRE FIGHTING MEASURES

Suitable extinguishing media

Water spray (fog), Carbon dioxide (CO₂), Foam, Extinguishing powder, Sand

Unsuitable extinguishing media

No information available

Specific hazards arising from the chemical product

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

Special extinguishing method

No information available

Special protective actions for fire-fighters

Use personal protective equipment as required. Firefighters should wear self-contained breathing apparatus and full firefighting turnout gear.

Section 6: ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

For indoor, provide adequate ventilation process until the end of working. Deny unnecessary entry other than the people involved by, for example, using a rope. While working, wear appropriate protective equipments to avoid adhering it on skin, or inhaling the gas. Work from windward, and retract the people downwind.

Environmental precautions

To be careful not discharged to the environment without being properly handled waste water contaminated.

Methods and materials for contaminant and methods and materials for cleaning up

Sweep up and gather scattered particles, and collect it in an empty airtight container.

Recovery, neutralization

No information available

Secondary disaster prevention measures

Clean contaminated objects and areas thoroughly observing environmental regulations.

Section 7: HANDLING AND STORAGE

Handling

Technical measures

Avoid contact with strong oxidizing agents. Use with local exhaust ventilation.

Precautions

Do not rough handling containers, such as upsetting, falling, giving a shock, and dragging. Prevent leakage, overflow, and scattering. Not to generate steam and dust in vain. Seal the container after use. After handling, wash hands and face, and then gargle. In places other than those specified, should not be smoking or eating and drinking. Should not be brought contaminated protective equipment and gloves to rest stops. Deny unnecessary entry of non-emergency personnel to the handling area.

Safety handling precautions

Avoid contact with skin, eyes or clothing. Use personal protective equipment as required.

Storage

Safe storage conditions

Storage conditions

Store away from sunlight in a cool (2-10 °C) well-ventilated dry place. Store locked up.

Safe packaging material

Glass

Incompatible substances

Strong oxidizing agents

Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls

In case of indoor workplace, seal the source or use a local exhaust system. Provide the safety shower facility, and hand- and eye-wash facility. And display their position clearly.

Exposure limits

| Chemical Name | JSOH (Japan) | ISHL (Japan) | ACGIH |
|---------------------------------------|--------------|--------------|------------------------------|
| Triphenyltin(IV) Hydroxide 76-87-9 | N/A | N/A | TWA 0.1mg(Sn)/m ³ |

Personal protective equipment

| | |
|---------------------------------|--------------------------------------------------|
| Respiratory protection | Dust mask (JIS T 8151) |
| Hand protection | chemical protective gloves (JIS T 8116) |
| Eye protection | protective eyeglasses or chemical safety goggles |
| Skin and body protection | Long-sleeved work clothes |

General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

Section 9: PHYSICAL AND CHEMICAL PROPERTIES

Form

| | |
|---------------------------------------------------------------|----------------------------------------------------------------------------------------------------|
| Color | White - nearly white |
| Appearance | powder |
| Odor | no data available |
| Melting point/freezing point | 116 - 120 °C |
| Boiling point, initial boiling point and boiling range | no data available |
| Flammability | no data available |
| Evaporation rate: | no data available |
| Flammability (solid, gas): | no data available |
| Upper/lower flammability or explosive limits | |
| Upper: | no data available |
| Lower: | no data available |
| Flash point | no data available |
| Auto-ignition temperature: | no data available |
| Decomposition temperature: | no data available |
| pH | no data available |
| Viscosity (coefficient of viscosity) | no data available |
| Dynamic viscosity | no data available |
| Solubilities | acetone : soluble . Ethanol : sparingly soluble . water : practically insoluble, or insoluble . |
| n-Octanol/water partition coefficient:(log Pow) | 3.66 |
| Vapour pressure | no data available |
| Specific Gravity / Relative density | no data available |
| Vapour density | no data available |
| Particle characteristics | no data available |

Section 10: STABILITY AND REACTIVITY

Stability

| | |
|-----------------------------------------|-----------------------------------------------------------------------|
| Reactivity | no data available |
| Chemical stability | Stable under recommended storage conditions. |
| Hazardous reactions | |
| None under normal processing | |
| Conditions to avoid | Extremes of temperature and direct sunlight |
| Incompatible materials | Strong oxidizing agents |
| Hazardous decomposition products | Carbon monoxide (CO), Carbon dioxide (CO ₂), Metal oxides |

Section 11: TOXICOLOGICAL INFORMATION

Acute toxicity

| Chemical Name | Oral LD50 | Dermal LD50 | Inhalation LC50 |
|----------------------------|-------------------|----------------------|-----------------------|
| Triphenyltin(IV) Hydroxide | 156 mg/kg (Rat) | 127 mg/kg (Rabbit) | 0.06 mg/L 4 h (Rat) |

| Chemical Name | Acute toxicity -oral- source information | Acute toxicity -dermal- source information | Acute toxicity -inhalation gas- source information |
|----------------------------|-----------------------------------------------|-----------------------------------------------|----------------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. | Based on the NITE GHS classification results. | Based on the NITE GHS classification results. |

| Chemical Name | Acute toxicity -inhalation vapor- source information | Acute toxicity -inhalation dust- source information | Acute toxicity -inhalation mist- source information |
|----------------------------|------------------------------------------------------|-----------------------------------------------------|-----------------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. | Based on the NITE GHS classification results. | Based on the NITE GHS classification results. |

Skin irritation/corrosion

| Chemical Name | Skin corrosion/irritation source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Serious eye damage/ irritation

| Chemical Name | Serious eye damage/irritation source information |
|----------------------------|--------------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Respiratory or skin sensitization

| Chemical Name | Respiratory or Skin sensitization source information |
|----------------------------|------------------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Reproductive cell mutagenicity

| Chemical Name | germ cell mutagenicity source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Carcinogenicity

| Chemical Name | Carcinogenicity source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Reproductive toxicity

| Chemical Name | Reproductive toxicity source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

STOT-single exposure

| Chemical Name | STOT -single exposure- source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

STOT-repeated exposure

| Chemical Name | STOT -repeated exposure- source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Aspiration hazard

| Chemical Name | Aspiration Hazard source information |
|----------------------------|-----------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. |

Section 12: ECOLOGICAL INFORMATION

Ecotoxicity

| Chemical Name | Algae/aquatic plants | Fish | Crustacea |
|----------------------------|----------------------|---------------------------------------|-----------|
| Triphenyltin(IV) Hydroxide | N/A | LC50: Fathead minnow 7.4 µg/L 96 h | N/A |

Other data

| Chemical Name | Short-term (acute) hazardous to the aquatic environment source information | Long-term (chronic) hazardous to the aquatic environment source information |
|----------------------------|----------------------------------------------------------------------------|-----------------------------------------------------------------------------|
| Triphenyltin(IV) Hydroxide | Based on the NITE GHS classification results. | Based on the NITE GHS classification results. |

Persistence and degradability No information available

| | |
|---------------------------|--------------------------|
| Bioaccumulative potential | No information available |
| Mobility in soil | No information available |
| Hazard to the ozone layer | No information available |

Section 13: DISPOSAL CONSIDERATIONS

Waste from residues

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Contaminated container and contaminated packaging

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Section 14: TRANSPORT INFORMATION

ADR/RID

| | |
|-------------------------|----------------------------------------------------------------|
| UN number | UN3146 |
| Proper shipping name: | Organotin compound, solid, n.o.s. (Triphenyltin(IV) Hydroxide) |
| UN classification | 6.1 |
| Subsidiary hazard class | |
| Packing group | II |
| Marine pollutant | Yes |

IMDG

| | |
|--------------------------------------------------------------------------|----------------------------------------------------------------|
| UN number | UN3146 |
| Proper shipping name: | Organotin compound, solid, n.o.s. (Triphenyltin(IV) Hydroxide) |
| UN classification | 6.1 |
| Subsidiary hazard class | P |
| Packing group | II |
| Marine pollutant (Sea) | Yes |
| Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code | No information available |

IATA

| | |
|-------------------------------------|----------------------------------------------------------------|
| UN number | UN3146 |
| Proper shipping name: | Organotin compound, solid, n.o.s. (Triphenyltin(IV) Hydroxide) |
| UN classification | 6.1 |
| Subsidiary hazard class | |
| Packing group | II |
| Environmentally Hazardous Substance | Yes |

Section 15: REGULATORY INFORMATION

Japanese regulations

| | |
|---------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Fire Service Act | Not applicable |
| Poisonous and Deleterious Substances Control Law | Deleterious Substances 3rd. Grade |
| Industrial Safety and Health Act | Harmful Substances Whose Names Are to be Indicated on the Label (Law Art.57, Para.1, Enforcement Order Art.18) Notifiable Substances (Law Art.57-2, Enforcement Order Art.18-2 Attached Table No.9)No.322 |
| Act on the Evaluation of Chemical Substances and Regulation of Their Manufacture, etc | Class II Specified Chemical Substances (Law Art.2, Para.3, Enforcement Order Art.1-2) |
| Regulations for the carriage and storage of dangerous goods in ship | Toxic Substances - Poison (Ordinance Art.3, Ministry of Transportation Ordinance Regarding Transport by Ship and Storage, Attached Table 1) |
| Civil Aeronautics Law | Toxic and Infectious Substances (Ordinance Art.194, MITL Notification for Air Transportation of Explosives etc., Attached Table 1) |
| Marine Pollution Prevention Law | Marine pollutants (P and PP substances) |

Pollutant Release and Transfer Class 1**Register Law****(2023.4.1-)****Class 1 - No.**
Export Trade Control Order
Air Pollution Control Law664
Not applicable
Hazardous Air Pollutants

| Chemical Name | Poisonous and Deleterious Substances Control Law | Industrial Safety and Health Act Substances (Law Art.57-2) | Pollutant Release and Transfer Register Law (2023.4.1-) |
|------------------------------------------------|--------------------------------------------------|------------------------------------------------------------|---------------------------------------------------------|
| Triphenyltin(IV) Hydroxide 76-87-9 (98.0) | Applicable | Applicable | Applicable |
