

# SAFETY DATA SHEET

According to JIS Z 7253:2019 Revision date 28-Feb-2024 Revision Number 2.05

## Section 1: PRODUCT AND COMPANY IDENTIFICATION

| Product Name  | Thiophanate-methyl Standard  |
|---|--|
| Product Code  | 200-19411  |
| Supplier  | FUJIFILM Wako Pure Chemical Corporation<br>1-2 Doshomachi 3-Chome, Chuo-ku, Osaka 540-8605, Japan<br>Phone: +81-6-6203-3741                                      |
| Emergency telephone number<br>Recommended uses<br>Restrictions on use | Fax: +81-6-6203-2029<br>+81-6-6203-3741 / +81-3-3270-8571<br>For research use only<br>Seek expert judgment when using for purposes other than those recommended. |

### Section 2: HAZARDS IDENTIFICATION

GHS classification <u>Classification of the substance or mixture</u> Acute toxicity - Inhalation (Dusts/Mists) Skin sensitization Germ cell mutagenicity Carcinogenicity Specific target organ toxicity (repeated exposure) Category 2 liver, thyroid gland, blood system Acute aquatic toxicity Chronic aquatic toxicity

Category 4 Category 1 Category 2 Category 2 Category 2

Category 1 Category 1

Pictograms

#### Hazard statements

H332 - Harmful if inhaled

H341 - Suspected of causing genetic defects

H351 - Suspected of causing cancer

H317 - May cause an allergic skin reaction

- H410 Very toxic to aquatic life with long lasting effects
- H400 Very toxic to aquatic life

H373 - May cause damage to the following organs through prolonged or repeated exposure: liver, thyroid gland, blood system

### **Precautionary statements-(Prevention)**

- Obtain special instructions before use
- Do not handle until all safety precautions have been read and understood
- Use personal protective equipment as required
- Use only outdoors or in a well-ventilated area
- · Contaminated work clothing should not be allowed out of the workplace

- · Wear protective gloves
- · Do not breathe dust/fume/gas/mist/vapors/spray

## · Avoid release to the environment

## **Precautionary statements-(Response)**

- · IF exposed or concerned: Get medical advice/attention
- IF ON SKIN: Wash with plenty of soap and water
- · If skin irritation or rash occurs: Get medical advice/attention
- · Wash contaminated clothing before reuse
- IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing
- Collect spillage

#### Precautionary statements-(Storage)

Store locked up

#### **Precautionary statements-(Disposal)**

· Dispose of contents/container to an approved waste disposal plant

#### Others Other hazards

Not available

Substance

## Section 3: COMPOSITION/INFORMATION ON INGREDIENTS

**Single Substance or Mixture** 

Formula

#### C12H14N4O4S2

| Chemical Name   | Weight-% | Molecular weight | ENCS | ISHL No.  | CAS RN     |
|---|----------|------------------|------|-----------|------------|
| thiophanate-methyl  | 99.0     | 342.39           | N/A  | 4-(13)-80 | 23564-05-8 |
| Note on ISHL No.: * in the table means announced chemical substances. |          |                  |      |           |            |

\* in the table means announced chemical substances.

## Section 4: FIRST AID MEASURES

#### Inhalation

Remove to fresh air. If symptoms persist, call a physician.

#### Skin contact

Wash off immediately with soap and plenty of water. If symptoms persist, call a physician.

#### Eye contact

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediate medical attention is required.

#### Ingestion

Rinse mouth. Never give anything by mouth to an unconscious person. Call a physician or poison control center immediately. Do not induce vomiting without medical advice.

#### Protection of first-aiders

Use personal protective equipment as required.

## Section 5: FIRE FIGHTING MEASURES

#### Suitable extinguishing media

Water spray (fog), Carbon dioxide (CO2), Foam, Extinguishing powder, Sand

## Unsuitable extinguishing media

## No information available

## Specific hazards arising from the chemical product

Thermal decomposition can lead to release of irritating and toxic gases and vapors.

## Special extinguishing method

#### No information available

#### Special protective actions for fire-fighters

Use personal protective equipment as required. Firefighters should wear self-contained breathing apparatus and full

firefighting turnout gear.

## Section 6: ACCIDENTAL RELEASE MEASURES

#### Personal precautions, protective equipment and emergency procedures

For indoor, provide adequate ventilation process until the end of working. Deny unnecessary entry other than the people involved by, for example, using a rope. While working, wear appropriate protective equipments to avoid adhering it on skin, or inhaling the gas. Work from windward, and retract the people downwind.

#### **Environmental precautions**

To be careful not discharged to the environment without being properly handled waste water contaminated.

Methods and materials for contaminent and methods and materials for cleaning up

Sweep up and gather scattered particles, and collect it in an empty airtight container.

### Recoverly, neutralization

No information available

### Secondary disaster prevention measures

Clean contaminated objects and areas thoroughly observing environmental regulations.

## Section 7: HANDLING AND STORAGE

#### Handling

#### **Technical measures**

Avoid contact with strong oxidizing agents. Use with local exhaust ventilation.

#### Precautions

Do not rough handling containers, such as upsetting, falling, giving a shock, and dragging. Prevent leakage, overflow, and scattering. Not to generate steam and dust in vain. Seal the container after use. After handling, wash hands and face, and then gargle. In places other than those specified, should not be smoking or eating and drinking. Should not be brought contaminated protective equipment and gloves to rest stops. Deny unnecessary entry of non-emergency personnel to the handling area.

#### Safety handling precautions

Avoid contact with skin, eyes or clothing. Use personal protective equipment as required.

#### Storage

 Safe storage conditions

 Storage conditions

 Storage conditions

 Safe packaging material

 Incompatible substances

 Storage conditions

## Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

#### **Engineering controls**

In case of indoor workplace, seal the source or use a local exhaust system. Provide the safety shower facility, and handand eye-wash facility. And display their position clearly.

#### **Exposure limits**

This product, as supplied, does not contain any hazardous materials with occupational exposure limits established by the region specific regulatory bodies.

#### Personal protective equipment Respiratory protection

Hand protection Eye protection Skin and body protection Dust mask ( JIS T 8151 ) chemical protective gloves ( JIS T 8116 ) protective eyeglasses or chemical safety goggles (JIS T 8147) Long-sleeved work clothes

#### General hygiene considerations

Handle in accordance with good industrial hygiene and safety practice.

If this product is classified as "Chemical Substances Hazardous to Skin, etc.", use appropriate protective equipment to them.

## Section 9: PHYSICAL AND CHEMICAL PROPERTIES

#### Form

| Color  | white   |
|--|---|
| Appearance   | crystalline powder - powder                                       |
| Odor   | no data available   |
| Melting point/freezing point                           | 173 °C (dec.)   |
| Boiling point, initial boiling point and boiling range | no data available   |
| Flammability   | no data available   |
| Evaporation rate:                                      | no data available   |
| Flammability (solid, gas):                             | no data available   |
| Upper/lower flammability or explosive limits           |   |
| Upper:   | no data available   |
| Lower:   | no data available   |
| Flash point  | no data available   |
| Auto-ignition temperature:                             | no data available   |
| Decomposition temperature:                             | no data available   |
| рН   | no data available   |
| Viscosity (coefficient of viscosity)                   | no data available   |
| Dynamic viscosity                                      | no data available   |
| Solubilities   | water : practically insoluble, or insoluble . acetone : soluble . |
| n-Octanol/water partition coefficient:(log Pow)        | no data available   |
| Vapour pressure  | no data available   |
| Specific Gravity / Relative density                    | no data available   |
| Vapour density   | no data available   |
| Particle characteristics                               | no data available   |
|  |   |

## Section 10: STABILITY AND REACTIVITY

## Stability

| Reactivity                       | no data available   |
|----------------------------------|---|
| Chemical stability               | Instable in alkali. May be altered by light.              |
| Hazardous reactions              |   |
| None under normal processing     |   |
| Conditions to avoid              |   |
| Extremes of temperature and dire | ect sunlight  |
| Incompatible materials           |   |
| Strong oxidizing agents          |   |
| Hazardous decomposition product  | S   |
| Carbon monooxide (CO), Carbon    | dioxide (CO2), Nitrogen oxides (NOx), Sulfur oxides (SOx) |
|                                  |   |

## Section 11: TOXICOLOGICAL INFORMATION

#### Acute toxicity

| Chemical Name      | Oral LD50            | Dermal LD50           | Inhalation LC50  |
|--------------------|----------------------|-----------------------|------------------|
| thiophanate-methyl | > 5000 mg/kg ( Rat ) | > 2000 mg/kg ( Rat )  | 1.7 mg/L(Rat)4 h |
|                    |                      | > 2000 mg/kg (Rabbit) |                  |

| Chemical Name                       | Acute toxicity -oral- source<br>information             | Acute toxicity -dermal- source information             | Acute toxicity -inhalation gas-<br>source information  |
|-------------------------------------|---|--|--|
| thiophanate-methyl                  | Based on the NITE GHS                                   | Based on the NITE GHS                                  | Based on the NITE GHS                                  |
|                                     | classification results.                                 | classification results.                                | classification results.                                |
|                                     |   |  |  |
|                                     |   |  |  |
| Chemical Name                       | Acute toxicity -inhalation                              | Acute toxicity -inhalation dust-                       | Acute toxicity -inhalation mist-                       |
| Chemical Name                       | Acute toxicity -inhalation<br>vapor- source information | Acute toxicity -inhalation dust-<br>source information | Acute toxicity -inhalation mist-<br>source information |
| Chemical Name<br>thiophanate-methyl |   | source information                                     | -  |

#### Skin irritation/corrosion

| Chemical Name                     | Skin corrosion/irritation source information         |
|-----------------------------------|--|
| thiophanate-methyl                | Based on the NITE GHS classification results.        |
| Serious eye damage/ irritation    |  |
| Chemical Name                     | Serious eye damage/irritation source information     |
| thiophanate-methyl                | Based on the NITE GHS classification results.        |
| Respiratory or skin sensitization |  |
| Chemical Name                     | Respiratory or Skin sensitization source information |
| thiophanate-methyl                | Based on the NITE GHS classification results.        |
| Reproductive cell mutagenicity    |  |
| Chemical Name                     | germ cell mutagencity source information             |
| thiophanate-methyl                | Based on the NITE GHS classification results.        |
| Carcinogenicity                   |  |
| Chemical Name                     | Carcinogenicity source information                   |
| thiophanate-methyl                | Based on the NITE GHS classification results.        |
|                                   |  |

#### **Reproductive toxicity**

| Chemical Name          | Reproductive toxicity source information      |
|------------------------|---|
| thiophanate-methyl     | Based on the NITE GHS classification results. |
| STOT-single exposure   |   |
| Chemical Name          | STOT -single exposure- source information     |
| thiophanate-methyl     | Based on the NITE GHS classification results. |
| STOT-repeated exposure |   |
| Chemical Name          | STOT -repeated exposure- source information   |
| thiophanate-methyl     | Based on the NITE GHS classification results. |
| Aspiration hazard      |   |
| Chemical Name          | Aspiration Hazard source information          |
| thiophanate-methyl     | Based on the NITE GHS classification results. |
| · · · · ·              |   |

## Section 12: ECOLOGICAL INFORMATION

#### Ecotoxicity

| Chemical Name      | Algae/aquatic plants | Fish                       | Crustacea |
|--------------------|----------------------|----------------------------|-----------|
| thiophanate-methyl | N/A                  | LC50 : Ictalurus punctatus | N/A       |
|                    |                      | 0.03 mg/L 96 h             |           |

#### Other data

| Chemical Name      | Short-term (acute) hazardous to the    | Long-term (chronic) hazardous to the   |
|--------------------|--|--|
|                    | aquatic environment source information | aquatic environment source information |
| thiophanate-methyl | Based on the NITE GHS classification   | Based on the NITE GHS classification   |
|                    | results.                               | results.                               |

| Persistence and degradability | No information available |
|-------------------------------|--------------------------|
| Bioaccumulative potential     | No information available |
| Mobility in soil              | No information available |
| Hazard to the ozone layer     | No information available |

## Section 13: DISPOSAL CONSIDERATIONS

#### Waste from residues

Disposal should be in accordance with applicable regional, national and local laws and regulations. **Contaminated container and contaminated packaging** 

Disposal should be in accordance with applicable regional, national and local laws and regulations.
