

Code No.02-1928

## SPECIFICATION

### 6,13-Bis(triisopropylsilylethynyl)pentacene

for Functional Organic Materials

| REQUIREMENT                              | SPECIFICATION               |
|------------------------------------------|-----------------------------|
| Appearance                               | Blueish black ~ black,      |
| Solubility in tetrahydrofuran            | crystalline powder ~ powder |
| Loss on drying over silica gel in vacuum | to pass test                |
| Assay (HPLC)                             | under investigation         |
|                                          | min.99.0%                   |
