

Code No.07-0516

SPECIFICATION

Glycyrrhizic Acid

for the Japanese Pharmacopoeia Crude Drugs Test (for TLC)

REQUIREMENT	SPECIFICATION
Description	White crystals or crystalline powder
Identification	to pass test
Purity	-
Related substances	to pass test
* Solubility in ethanol	to pass test
* Water	measured value
* Specific absorbance E1%1cm (252nm) (after drying)	140~150
* Assay (HPLC)	min.98.0%

This product is suited for Glycyrrhizic Acid for thin-layer chromatography of general tests on The Japanese Pharmacopoeia.
(*:Additional test performed by Wako)
