## **SPECIFICATION**

## 100mmol/L Guanosine 5'-Triphosphate Sodium Solution

for Nucleic Acid Synthesis

| REQUIREMENT          | SPECIFICATION       |
|----------------------|---------------------|
| Appearance           | Liquid              |
| рН                   | under investigation |
| Bacterial endotoxins | less than 1EU/mL    |
| Deoxyribonuclease    | to pass test        |
| Ribonuclease         | to pass test        |
| Concentration        | under investigation |
| Assay (HPLC)         | min.98.5%           |
