Code No. 014-27241 (10 μ L)
010-27243 (50 μ L)**Anti Amyloid Precursor Protein,
Monoclonal Antibody (3E9)****抗アミロイド前駆体たん白質,
モノクローナル抗体(3E9)****Background**

Amyloid β ($A\beta$) is considered the cause of Alzheimer's disease, because it is the major component of senile plaques. $A\beta$ is produced when the amyloid precursor protein (APP) is cleaved by α -secretase and β -secretase. APP belongs to an evolutionary conserved gene family including amyloid precursor-like proteins (APPL1 and APPL2). This item is a mouse monoclonal antibody that reacts with APP.

Description

[Reactivity]	Reacts with amyloid precursor protein
[Antigen]	Synthetic peptide corresponding to 18-38 amino acid of APP695
[Species cross reactivity]	Mouse and Human
[Clone No.]	3E9
[Host]	Mouse
[Isotype]	IgG1
[Concentration]	Indicated on the label.
[Formulation]	PBS with 50% Glycerol

Applications

Western blotting 1 : 100~200

Optimal concentration should be determined by each laboratory for each application.

Storage

Store at -20°C .
Avoid repeated freeze and thaw.

Package

Code No.	Packaging
014-27241	10 μ L
010-27243	50 μ L
