## **SPECIFICATION**

## Sulfanilic Acid

## for Nitrogen Oxides Analysis

REQUIREMENT	SPECIFICATION
Appearance	White $\sim$ slightly red, crystalline powder $\sim$
Solubility in water	powder to pass test
Residue after ignition (as sulfate)	max.0.02%
Chloride (Cl)	max.0.002%
Sulfate (SO4)	max.0.005%
Suitability for nitrogen oxides measurement	to pass test
Assay	99.0~100.5%
